

Mindy Day — Team Brief

The live product launch & demo of Mindy, our AI BD analyst for federal small business.

 **Sat, August 22, 2026**

 **10:00 AM – 1:00 PM ET**

 **Live on Zoom**

 **Free to attend**

WHAT THIS IS

A **guided live demo** — not a webinar, not a sales pitch. We walk the whole product end to end and the audience follows along. **Mindy is already live** at getmindy.ai; August 22 is the public unveiling and the payoff of our 5-part YouTube runway series. New format: 2 hours of demo + teaching, then a **full hour of live Q&A**.

AGENDA (10:00 AM – 1:00 PM ET)

10:00	Meet Mindy — The Live Demo. Work a real pursuit end to end: one keyword → full market, incumbent intel, first-draft proposal.	DEMO
10:30	The Old Way. The midnight SAM.gov scroll, one NAICS code, manual award digging — and the 72% it misses.	CONTEXT
11:00	Why It Matters. What the hidden market costs you; why grounded, sourced data beats AI guesswork.	STRATEGY
11:30	How to Apply It to Your Business. Your codes, your agencies, your first real pursuit this week.	APPLY
12:00	Live Q&A + Your First Pursuit. Full hour — bring an industry/opportunity, we run it through Mindy live.	Q&A

WHO IT'S FOR (LEAD WITH THESE)

-  **Trades & construction** — HVAC, electrical, roofing, facilities
-  **Trucking & logistics** — freight, warehousing, supply
-  **Services & consultants** — BD for themselves or their clients
-  **New / stuck contractors** — tired of missing contracts that fit

Tone: plain language for trades/trucking/services — not the tech crowd. Define acronyms once.

 **Data rule:** always cite **317K contractors** for the database — never the small "2.7K" SEO-page count. Hidden-market proof points: Drones 72% hidden · Cybersecurity 74% (\$2.07B) · Medical supplies 74%.
